Attendance Management

1 Connection Diagram

Note: Use only one power source at a time.

2 Lock Connection Diagram

Do not connect more than 5V DC to the control device.

Lock power must match the lock's rated voltage. The control device does not supply power to the lock directly. Follow the wiring connection shown in the diagram.

3 How it works

1 Register Fingerprint
Add user and register fingerprint on the device.

2 Employee Punches
User places finger on the sensor to mark attendance.

3 Attendance Recorded
Data is saved automatically on the device.

4 View on App/Web
Check reports and manage attendance anytime, anywhere.

4 Connect with any smart display

Display attendance records and date on any smart display.

5 How to Mange XS200

Mange your attendance anytime, anywhere.

Connect XS200 to Wi-Fi

Register users and fingerprints

Add the device to the XS.jiSECURE mobile app.

Monitor attendance from your smartphone/ web portal
